(P.T.O.)

The AEE has submitted the proposals for construction of Kalabhavan in favour of SP.Balu fans association at Narayanpet mandal for 15 lakhs with the detailed modal estimate of the SC Community hall with size $16^1 \times 24^1$ Hall and $18' \times 8'$ stage, for an amount of Rs.15.00 lakhs and the same was admin sanctioned vide proc.no.03/PLG-I/CPO/MPLADS/MP/16th LS/MBNR/2014-15, dt: 31.01.2015 of Collector and District Magistrate Mahabubnagar. The Physical measurements of the sand filling, PCC and VRCC of the Column footing (3 nos at random) of the Kala Bhavan building were verified with respect to the recorded measurements and were not tallied. The recovery was calculated against the deficiencies in the measurements for the 3 columns. CHARGE- IV:

That Sri S.Sathyanarayana Rao, the then Executive Engineer, PR, Narayanpet (now dismissed from service) has left the structure in midway in incomplete shape is in violation of MPLADS Guidelines 3.3.

BASIS:

The V&E Department, have inspected the works and furnished detailed enquiry report vide their Report No. 45(191/V&E/E.III/2017), Dt.31.10.2017 on the allegations against the misuse of MP LADS in the construction of Kalabhavan at narayanpet Mahabubnagar district.

Kalabhavan building work was completed up to plinth level at the time of inspection and verified the physical measurements of the work ie., columns, footings, gravel filling inside the basement and stone masonry with respect to the recorded measurements. The work was stopped at basement level.

The initial line estimate for Rs.15 lakhs of community Hall was with less dimensions and normal foundation depths. Whereas the proposed Kalabhavan building dimensions were three times increased. But the Executive Engineer/PR has submitted the revised estimate for Rs.15 lakhs up to roof level. He has modified the initial estimate without taking prior permission from higher authorities and also without approved designs and drawings. According to site conditions so as to get the required SBC the depth of foundations are increased. Hence, the foundation cost is increased as the depth of the foundation has gone up to nearly 3mts. In view of the above the estimate amount was exhausted only up to basement level.

The preparation of irrelevant estimate was without site inspection and in violation of clause 3.3.1 of MPLADS guidelines.

Based on the above findings it is to state that the allegation of Misuse of MPLADS in the construction of Kalabhavan at Narayanpet, Mahabubnagar is substantiated.

::3::

Thus, Sri S. Sathyanarayana Rao, the then Executive Engineer, PR, Narayanpet (now dismissed from service) has failed to discharge his legitimate duties properly by violating the guide lines detailed in clause 3.8, 3.9 of MP LADS. Thus his action is in violation of Rule (3) of TCS (Conduct) Rules, 1964.
